Dear Mr. Albertie:

I wish to acknowledge and congratulate RKA Petroleum Companies on its new bio-diesel blending and distribution terminal in Romulus.

It is wonderful to learn of the new successes of businesses located in my state senate district. I commend RKA for investing in the emerging industry of producing cleaner-burning fuel made from renewable sources. The benefits of this technology are endless to the environment and Michigan consumers. I wish you all the best in this new endeavor.

Again, my sincerest congratulations.

Sincerely,

RAYMOND E. BASHAM
